Short info:

1998-2010... 12 years of Swiss-Reggae history, written and formed by the Basler Reggae Phenomenon FAMARA. With intuitive certainty he shifted freely between the borderline of Reggae, Dub and Worldmusic. In the meantime his Afro-Reggae has grown successfully, resulting in six albums and various concert tours in Switzerland, Germany and throughout the rest of Europe - it is time to look back and make a career review.

With the spring awakening FAMARA is presenting his «THE SOUND OF FAMARA». New, unpublished and previous song material merged together on one compact disc. A special thanks to everyone who supported and accompanied him for the past years.

With the backup of the Basler THE SCRUCIALISTS he delivers two new great acoustic delicacies. The e-guitar in «My Sound» (No. 1) is very Rock-capable, whereas gentle Choir-Melodies are to be found in «Stand uff» (No. 2). The new songs are complemented by unpublished tracks of past days («Legba Dub», «Ghetto Prezident», «Paco»), that combine an earth-bound gravity with Caribbean swiftness. Classics like «Mafrundee», «Mamah Fatuma» and «Radio HiFi Song», as well as Live Versions of «Acceptez-moi» and «Super Natural» - from his latest Studio Album «Oreba» - complete the journey through time. A deep and personal opus.

Where would FAMARA be without his Live-Shows! Once more on a Swiss-Club-Tour, he will perform a.o. at the Album Prerelease-Party on 7 May, 2010 in Basel (Kaserne) and the Album Release-Party on 23 May, 2010 in Winterthur (Salzhaus).
